

Creatively Belle Thread Sorter

To use the thread sorter:

1. Print out the page of the thread sorter you'd like to use.
2. Attach it to some cardboard (try gluing and leaving it to dry properly)
3. Carefully pierce a hole through the circle so you can pass the thread through
4. Write in the colour code and number next to the thread
5. Sit back and be impressed with what you've achieved for your new project!

Project name:
